MOHAMMED AMMAR TANWAR

Senior Frontend Engineer | Next.js & TypeScript Specialist

ammar-tanwar | +91 8239019096 | ammar.tanwar.dev@gmail.com | India (Open to Relocation)

Summary

Frontend Engineer with 5+ years of experience specializing in Next.js (App Router, SSR/SSG), TypeScript, and React.js. Proven track record architecting enterprise SaaS platforms, integrating REST/GraphQL APIs and AI-driven features, and driving Core Web Vitals to sub-second load times. Experienced in unit testing (Jest/RTL), CI/CD pipelines, and mentoring squads to raise code quality.

Technical Skills

Frameworks & Core: Next.js (App Router, Pages Router, SSR, SSG, ISR), React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Zustand, Context API
UI & Styling: Tailwind CSS, Reusable Design Systems, Responsive UI Architecture, WCAG 2.1 AA, WAI-ARIA
APIs & Data Handling: RESTful APIs, GraphQL, NextAuth / JWT & RBAC Auth Flows, TanStack Query, Node.js, Postman
Quality & Performance: Unit & Integration Testing (Jest, RTL), Production Performance Profiling (Core Web Vitals), Webpack, Vite, CI/CD, Git
AI Enablement: AI Feature Integration (LLM/API streaming, smart search, conversational UI)

Experience

CXS Analytics Sdn Bhd

November 2024 - September 2026
(Remote - Malaysia/Global)

Software Developer (Frontend)

- Led frontend architecture for InsightAccess, a multi-tenant enterprise HCM platform serving global corporate clients.
- Architected modular, performant UI workflows and dashboards using Next.js and TypeScript, implementing aggressive caching strategies and integrating REST/GraphQL APIs with secure RBAC and JWT authentication.
- Engineered Talent Acquisition modules incorporating secure, performant AI-driven features (streaming candidate search/recommendation UI) while streamlining full-stack data handling with Laravel backends.
- Delivered WCAG 2.1 AA-compliant design systems backed by comprehensive unit and integration test suites via Jest and React Testing Library, eliminating regressions and cutting rendering latency.
- Developed client-facing applications for Malaysia's national MyNext initiative, deploying zero-downtime releases via GitLab CI/CD pipelines.

Learn Vista Private Limited (Learnbay)

January 2022 - November 2024
Bengaluru, Karnataka

Senior Web Developer

- Spearheaded frontend architecture and mentored 4 engineers in TypeScript standards, testing best practices, and maintainable code reviews.
- Migrated legacy monolithic architecture to Next.js utilizing hybrid SSR and SSG patterns, boosting SEO discoverability and platform scalability.
- Built and maintained an enterprise reusable UI component library across 3 portals, standardizing accessibility and reducing sprint cycles by 30%.
- Spearheaded production performance profiling and Core Web Vitals optimization via Chrome DevTools, reducing client-side bundle size by 40% and sustaining sub-second interaction metrics on high-traffic routes.
- Engineered interactive student performance tracking dashboards using React, TypeScript, and robust client-side state management.

ABAL Solutions

June 2020 - December 2021
Remote

Web Developer

- Developed responsive web interfaces using modern JavaScript (ES6+), semantic HTML5, and CSS3, integrating modular UI components with RESTful APIs.
- Implemented client-side asset optimization and aggressive browser caching strategies, reducing page latency by 30%.

Education

Bachelor of Technology in Computer Science and Engineering 2017-2021
Rajasthan Technical University, Kota, Rajasthan
